## Competitive advantages

Centrally located & accessible

EDMONTON

### BIG NEWS

#### IMPERIAL Biodiesel facility

Imperial plans to build Canada's largest renewable diesel complex in Strathcona County - producing more than 1 billion litres per year of renewable diesel from locally sourced feedstocks. Project is expected to realize ~3 million tonnes per year in emissions reductions in the Canadian transportation sector.

#### INTER PIPELINE Heartland Petrochemical Complex

As North America's first single site PDH/PP facility, Heartland Polymers is employing the latest technology to produce quality polypropylene for North American customers - and beyond.

## STRATHCONA COUNTY

### Success stories

Shell is an international energy company with operations located in Strathcona County – an expansive manufacturing facility, a marketing terminal, & multiple retail locations. Shell Scotford is comprised of an upgrader, a refinery, two chemical plants, & a carbon capture & storage facility.

They benefit from a robust infrastructure, availability to a highly educated workforce, & a valued and supported relationship with the local business community & municipality.

Businesses choose Strathcona County & are supported here. See how at [strathcona.ca/stories](http://strathcona.ca/stories).
